THE HANSAPRADO COMBINES EUROPEAN FUNCTION AND MODERN DESIGN New HANSA Bathroom Collection offers 16 percent in Energy and Water Savings

NORCROSS, Ga. (August 2007) – Europeans are often praised for their functionality and modern designs. Hansa, with its world headquarters located in Germany, is now introducing its most efficient bathroom collection to the American market. The **Hansaprado** offers a luxurious, modern design while staying ecologically-friendly.

While providing a full stream of water, the **Hansaprado** offers a pre-adjustable water volume cartridge. The **Hansaprado**'s integrated anti-scald setting can also be adjusted individually, thus reducing the risk of scalding and hot water consumption.

Like all Hansa products, the high-quality chrome-plated faucet **Hansaprado** is made of a particularly corrosion-resistant brass. The material reduces the risk of heavy metals prevalent in many brass alloys from being fed into drinking water. The simple, clean design delivers for those looking to round out their contemporary bathroom.

Apart from the single basin lever faucet, the **Hansaprado** bathroom collection includes bidet and hand-held shower and other bath accessories.

For more information about the **Hansaprado** or other Hansa products, call 678.334.2121 or visit www.hansa.com.

About HANSA and KWC AMERICA

Based in Germany, Hansa is a company of the Hansa group and is world-renown for its innovative and groundbreaking designs in the kitchen and bath industry. For nearly 100 years, Hansa has been dedicated to global development of its family-owned and operated business.

KWC AMERICA, a company of the Hansa group, is currently a leading supplier of luxury kitchen and bath faucets, sinks, shower systems and accessories in North America. For more than 130 years, KWC has defined Swiss excellence and is proud to be the first faucet manufacturer in Switzerland to receive the ISO 9001 Quality Assurance Certificate.
