HANSA ELEVATES ITS HANSARONDA COLLECTION TO THE NEXT LEVEL OF PERFORMANCE

NORCROSS, Ga. (April 2008) – Hansa adds to its classic **Hansaronda** collection with the introduction of the new **Hansaronda** vessel faucet. Embodying freedom and high style, the Hansaronda is ideal for modern washstands or sink basins.

“The flawless blend of functionality and luxury creates a calming experience that is synonymous with the Hansa brand,” says Jeff Boardman, divisional sales manager of HANSA AMERICA. “We are excited to provide homeowners more design flexibility with this new addition to the **Hansaronda** collection.”

In true **Hansaronda** fashion, the spout is easily operated with a slim stainless steel lever, while the open spout allows the water to flow clearly and freely. With an statuesque profile, the revolutionary **Hansaronda** vessel faucet stands just over 12 inches high.

The **Hansaronda** is equally adaptable for installation in residential homes, hotels or plush public facilities. The comprehensive **Hansaronda** bathroom collection also features fittings for the shower and bath, as well as a wide range of accessories including soap dishes and shower rails.

For more information on the **Hansaronda** or other Hansa products, call 678.334.2121 or visit www.hansa.us.com.
